

Summer Research Experience for Undergraduates in

Data-Centric Computing

10-Week Summer Position

June 4 – August 10, 2018

Selected applicants will receive a grant through the summer months to pursue research with one of the faculty members of the Computer Science Department of the University of Houston. The grant will include a **stipend of \$5,000, room and board** for 10 weeks, and **limited travel reimbursement** if the applicant is coming from outside the Houston metro area. Participants will make important contributions to the Department's ongoing research efforts.

Qualifications:

- US citizens or Permanent residents
- Major in Science or Engineering in a US university
- Solid CS and Math background
- Proficient in C++, visual C++ or Java

Priority Deadline for Applications: February 15, 2018

Deadline for Applications: March 15, 2018

or until the positions are filled.
